Corrugated protection pipes
Plast Line Liliana Dobrzynska

STATEMENT BY KIWA

This product certificate is based on Guideline 5610 "Plastics piping systems of PE-X/Al intended for heating installations: radiator connections" dated 25 October 2016, issued according to the Kiwa-Regulation for Certification.

The quality system and the product characteristics of this product are checked periodically. Based on this, **Kiwa declares that** there is legitimate confidence that:

Upon delivery, the product supplied by the certificate holder meets the requirements:

- Of the technical specifications laid down in this product certificate,
- The product requirements laid down both in this product certificate and in the Guideline.

Provided the Corrugated protection pipes are accompanied by the KOMO® quality mark in the manner set out in this product certificate.

Ron Scheepers
Kiwa

This product certificate is only valid in combination with a KOMO certified plastics piping system.

This product certificate is also included on the KOMO foundation websites: www.komo.nl and www.komo-online.nl.

Users of this product certificate is advised to check whether it is still valid. For this purpose consult the website of Kiwa: www.kiwa.nl.

Corrugated protection pipes

TECHNICAL SPECIFICATION

Subject

Corrugated protection pipes

Product characteristics

The product complies to BRL 5610 Plastics piping systems of PE-X/Al intended for heating installations: radiator connections, BRL 5606: Plastics piping systems of PE-X intended for heating installations: radiator connections, BRL 5607: Plastics piping systems of PE-RT intended for heating installations: radiator connections and BRL 5611: Plastics piping systems of PE-RT/Al intended for heating installations: radiator connections.

Specification

The dimensions of the pipe in the table below are part of this certificate.

Nominal outside diameter (mm)	Wall thickness (mm)
20	25
23	29
29	35

Colour: black, blue, red, violet

Marking

The products shall be marked with the KOMO[®] mark.

Protection pipes

The minimum required marking on the protection pipes shall be:

- KOMO (or KOMO[®] word mark);
- certificate number of the protection pipe;
- the manufacturer's name, trade name or logo.

The realization of the marks is as follows: clear, durable and indelible at intervals of not more than 2,5 m.

Logistics

Production and assembly of the system is laid down in the annex of the certification agreement.

APPLICATION AND USE

The protection pipes have to protect the medium pipes for radiator connections in case the medium pipes are embedded.

TIPS FOR THE USER

Check on delivery of the products listed under the "technical specification" whether:

- The product(s) and material(s) ordered are delivered in accordance with the agreement you made.
- The brand and the method of marking is correct
- No defects or damage is visible (for example, resulting from the transportation).

If on the basis of the foregoing you decide to proceed to rejection, please contact

- Plast Line Liliana Dobrzynska

And if necessary,

- Kiwa Nederland B.V.

Carry out the storage, transport and processing in accordance with the provisions included in this product certificate and/or documents of the certificate holder.
